I couldn't be happier with the platform bed and custom railing, stairs and drawers that Sander and Warren at Zen created for me. A walk-in closet now sleeps two - one up, one down - quite comfortably! Harry Potter would be jealous of this bed above and along side the stairs!!

Thanks Colleen! You guys have the coolest apartment in the Village, and Leo is cute as a button, with his toy tools he could be a great carpenter someday, or maybe he will produce award-winning television. It was a pleasure being in your home, and I am so glad everything worked out well for us all.

Thank you Sander for explaining every little detail to me I appreciate it. He is very knowledgeable with everything wood and even went in-depth with giving me input on how to do certain projects.

It was great to work with INS Construction, Archie - you guys have a great company. People - THIS is the CEO of INS - the company with the big sign on the BQE/Gowanus Expressway in Sunset Park. That's why you have heard of them. LOL.

Thank you so much Dr. [Member Name Removed]. Thank you so much for accommodating us. It's really quite heroic that you were able to work in that closet while we worked on the big room for your daughter. You are an absolute pleasure to work with and thank you for appreciating our communication, because we really do try to have the communication be exquisitely clear, and precise. The job we did for you is the best job yet! It's our pleasure to say they keep on getting better and better!

Sander and his team great to work with. I was the engineer on this complex metal fabrication job. I knew Sander and Zen because we had done a few projects in the city together. He didn't let me down and one of the truly nicest park areas ... [More](#)

Thanks, Renee, it is so great that we worked on Waterline Square together. I am proud to point it out, every time I drive by it on the Henry Hudson Parkway.

Zen built a loft bed for us recently, and we were very happy with the work they did. We did had a few small items that needed their attention after the initial work was done, and they were great in addressing those and making sure the job was done right.
